

# INNOVATING FOOD EMPOWERING STUDENTS FEEDING THE FUTURE

Join Us in Advancing Food Science

## Why Give?

- Opportunities to collaborate on product development and innovation
- Participation in industry-driven research projects
- Visibility as a partner shaping the future of food
- Access to top students for internships and recruitment

Our efforts aim to advance food science education and innovation by supporting student success, research initiatives, workforce pipelines, and industry partnerships.

### Research Funding

Support projects that drive advancements in food safety, product development, and technology, benefiting both students and industry partners.

### Endowed Professorships

Invest in exceptional faculty, ensuring long-term leadership in teaching, research, and innovation within food science and related fields.

### Industry Partnerships

Support student development, research initiatives, and program growth while gaining access to top talent.

### Student Scholarships

Help attract and retain talented students by providing them with opportunities to excel in academic, research, and leadership roles.
